THE MILITARY COMMITTEE POSTERDAY amined Mr. Holdane, of New York, again in relation to the sais of the cadetahlp by Mr. Golladay, of Kentucky. Mr. Holdane still professes ignorance, and utterly deales that Mr. G. received any consideration for the appointment of his (Holdane's) son. The object of continuing this investigation is to ascertain whether a resolution should be passed condemning Mr. Golladay as unrorthy a seat in the House. The committee has thus far no evidence to justify such a resolution. The worst feature against Mr. Golladay, is his promptness in resigning, but exactly why he should have done so, the committee is at a loss to know. The com-mittee also examined further into the case of Mr. Butler, of Tennessee. Gen. Schofield.

THE COMMITTEE appointed by the Naional Tobacco Association, which has just concluded its session in New York, arrived concluded its session in New York, arrived here yesterday, and are stopping at the Ebbitt house. After he had left Mrs Ties took the little girl and laid her neck across an open trunk, and holding her in that pealtine cut him thread from ear to ear, almost severing the head from the body. The boy some returned and found the muther lying on the soor by the child. He starmed the sedgebors, and when they arrived also was in the same position. She was placed upon a bed, where the lay monning for a long time. An officer took her in charge, and she has been locked up at Monticolo.

Various rumors are shous as to the woman's motive for committing the crime. A gestleman who was at the house a short time after the deed was committed eays that she stated she killed the child to spike her husband, as he thought a great deal of the little girl. Another says alse did it because she expected to die stooe, and then if her husband aboused. All the neighbore say she has a very vicious and morose disposition, and some say she and her husband have never lived pleasantly together. Most of the neighbors bulkers the woman to be same.

A GERMAN CALCULATION.—A GERMAN paper has made the following calculation: A train composed of all the becomotives and raliway carriages in Europe would reach from St. Petersburg to Parls, and would contain 400,000 passenger carriages and 500,000 inggage vans. The raliways of Europe are carried over 63,000 large and small bridges, and go through 34 miles of tunnel; 150,000,000 cwt. of from has been used for the ralls, and 30,000,000 cwt. of coal is required yearly to feed the engines. The network of European rallways includes all Elastes except Greece, Lippe-Dermold, Walderk and a few other very small German States. It represents a length of 70,715 miles; 10,000 locomotives are employed on it; the distance these rush ows during the year is 30,000,000 miles. If to this is added the distance passed over by passenger carriages and loggage vans, we get to 100,000,000 of oiles.

The Ouelda Disaster.

The Associated Press brought us nothing ater last night in relation to the disaster to the American war-ship Oneida. The full account, however, was not telegraphed to this city on Tuesday night. The New York papers yesterday have the following dis-patch in addition to what was published in the Repusators yesterday morning : The only United States Government vessel

The only United States Government vessel in Japan being the storeship, Minister Delong was obliged to accept from the Esglish, French and Russian mean-of-war steamens, etcam launches, exiters, due, and in company with Col. Shepars, Consul at Jeddo, and Mr. Farrington, proceeded to the scene of the disaster, where all in human power was and in still being dune to reacus the sufferers and recover the bodies of the lock. Minister Delong, on his own responsibility, has chartered the gunboat Arcostook, lately sold by the United States Government to private parties, manued ber with a mixed sold by the United States Government to private parties, manned her with a raixed erew of the survivers of the Onsida, volut-tor citizens and sugmers: furnished by the Russian corvette, and placed her under the command of naval officers and sent her, with Colonsi Shepard to represent him, to the scene of the disaster, while the Minister

ioug is entitied to great praise for his prompt and earnest action.

The following additions facts, by investigation, show there he sterrible responsibility comewhere clee besides with the Bountay. The Oneida, in a late typhono, lost all but three of her small boats. One of these was cut in two by the collision, leaving but two boats to save 17m men. The last words of Commander Williams, when Lieutenant Commander Williams, when Lieutenant Commander Williams, when Lieutenant commander Muldaur reported the vessel taking, were "I know it, but what can I do? I asked for more boats, and they were not allowed me."

Thus through the negligence of someholy and the inhumanity of the Hombay's officers abuttle scarred and historic ship has been such, and as brave a crew of officers and men as ever stood between her flag and her remaines have been lost to their friends and to their country.
